PROFESSIONAL SUMMARY

Software developer in Computer Science and Information Technology with hands-on experience in software development, API integration, and AI assisted development. Team lead and First Prize winner at a Flutter app development competition, and delivered a paid Flutter desktop application to a client. Developed full stack and AI powered applications using React and the Google Gemini API, and collaborated effectively in team projects. Completed an Artificial Intelligence and Cyber Security virtual internship at Indian Servers Pvt. Ltd.

TECHNICAL SKILLS

Programming Languages: Java, C, Python, Dart
Web Development: HTML, CSS, JavaScript, React.js
Backend & APIs: FastAPI, Google Gemini API
Databases: MySQL, MongoDB
AI & ML Platforms: Hugging Face
Development Tools: Git, GitHub, AI-Assisted Development Tools
Other Technologies: WordPress

INTERNSHIP EXPERIENCE

Virtual Intern, Indian Servers Pvt. Ltd. 14 May 2026 – 15 Jul 2026
Artificial Intelligence and Cybersecurity

- **Explored:** AI development tools and platforms, including Hugging Face, to understand and experiment with AI models.
- **Learned:** how to integrate external AI services into applications using API keys, including API authentication, request handling, and response processing within application workflows.
- **Implemented:** Developed the Smart Waste Classifier, an assigned software development task, with Python, Streamlit, and the Google Gemini API, and built AlgoMind, the internship final project, an AI-assisted learning application with Gemini API integration (see Selected Projects).
- Applied AI-assisted development tools to support coding, debugging, implementation, and problem-solving, strengthening practical skills in application development, AI API integration, testing, and debugging.

SELECTED PROJECTS

Gym Management System (Team Lead) Flutter, Dart, FastAPI, SQLite

- Led a team in designing and developing a Windows desktop gym management application using Flutter and Dart, with a FastAPI backend and SQLite database.
- Delivered the application to Capo Power House; the team received ₹5,000 for the project.

ShareSphere (Team Project) GitHub MongoDB, Express.js, React.js, Node.js (MERN)

- Collaborated with a team to develop a campus resource-sharing web application using the MERN stack.
- Built the full-stack application with a React.js frontend, a Node.js and Express.js backend, and a MongoDB database.

AlgoMind (Internship Final Project) Django REST Framework, React.js, Tailwind CSS, Gemini API

- Developed an AI-assisted data structures and algorithms learning application with a Django REST Framework backend and a React.js and Tailwind CSS frontend, integrating the Google Gemini API.
- Implemented a Gemini-powered AI tutor, quiz generation, and step-by-step algorithm visualizations; optimized AI API usage by caching generated narrations in SQLite.

EDUCATION

Lakireddy Bali Reddy College of Engineering (LBRCE), Mylavaram, Andhra Pradesh 2024 – 2028
B.Tech in Computer Science and Information Technology | CGPA: 8.68/10

ACHIEVEMENTS

- **First Prize, HackWave Flutter Hackathon**: team lead; developed HabitSync, a student habit and productivity app.
- **Second Prize, Blind Coding Competition** (2024).
- **Smart India Hackathon 2025**: cleared the internal college selection; did not qualify at the external stage.
- **e-Yantra Robotics Competition (eYRC), IIT Bombay**: currently participating in the online tasks.

CERTIFICATIONS

- **Cisco courses**: Python, Cybersecurity.
- **Simplilearn SkillUp**: Introduction to MySQL.
